Nikunj Parmar

Ph.No.: +91 9737146017 |E-Mail: nikunjparmar1534@gmail.com

Portfolio: nikunj023.github.io/nikunjparmar.github.io/ | GitHub:github.com/NIKUNJ023

Frontend Developer skilled in HTML, CSS, and JavaScript with hands-on experience building web applications. Passionate about creating user-friendly interfaces and currently seeking an entry-level frontend developer role. My portfolio will be my first responsive web project currently working on it.

Education

- 10th: S.S.C. Exam – 2016
- 12th: H.S.C. Exam – 2019

Projects

1. **To-Do List**: A simple To-Do List web app. It can store memory in local storage for late use.
   Link: to-dolist-iota-ten.vercel.app/

2. **Calculator**: Basic calculator which can do addition, subtraction, multiplication and division and gives error when question is invalid.
   Link: calculator-gold-xi-64.vercel.app/

3. **Weather App**: A weather app that runs on 'Openweather' API to fetch real-time data.
   Link: weatherapp-six-mu.vercel.app/

4. **QR Code Generator**: A web app that generates QR Code base on text or URL.
   Link: qrcodegenerator-gamma.vercel.app/

5. **Password Generator**: A web app that generates random password using Uppercase, Lowercase, Numbers and Special characters. We can pre-determine length of password via code.
   Link: passwordgenerator-mu-nine.vercel.app//

6. **Quiz App**: An app with pre-written questions and options, in the end it shows final score and we can retake the quiz if we want.
   Link: quizapp-alpha-ten.vercel.app/

7. **Drag & Drop**: A simple drag and drop interface. We can move block from one container to other.
   Link: draganddrop-chi.vercel.app/
